DFW Total Remodeling

& Painting · Brand Package Summary (v1.1)
Concept identity. Not trademark-cleared.

DFW TOTAL
REMODELING & PAINTING

1. Assumptions (verify these)

Known: a remodeling and paint company in Dallas–Fort Worth. Assumed: **residential** homeowners; kitchens, baths, additions, whole-home, interior/exterior painting, cabinet refinishing. Services, cities, price tier, and revenue split are still unknown.

> **Pushback:** the name is strong for local search but weak as a memorable brand. Check Texas SOS, domain, and trademark before printing anything. "Total" is a promise: if you subcontract trades, say "we manage every trade."

2. Positioning & Voice

Position: the DFW remodeler that also paints: one crew, one contact, one finished look from rough-in to final coat.
Pillars: one point of contact · written scope and price · clean, on-schedule jobsites.
Tagline (recommended): Built right. Start to finish. Ads: "Remodeling & painting, handled start to finish."

Voice: steady, plainspoken, precise, like a foreman who explains things. Use specifics, dates and ranges; avoid "dream space" talk, unearned superlatives, and fake urgency.
Bio: *Kitchen, bath & whole-home remodeling + painting across DFW. One contact, written scope, clean jobsites. Free estimates.*

3. Visual Identity

Foundation	Limestone	Brass	Deep Brass	Clay	Slate
#1C2B27	#F3EFE6	#B8893B	#8A5F1C	#9A3E21	#2F4B5C
text, nav	background	accent on dark	accent on light	CTAs only	links, badges

All text pairs pass WCAG AA (≥ 4.5:1; e.g. Foundation on Limestone 12.9:1, white on Clay 6.8:1). **Type:** Archivo 800/600 for headings, Inter for body, 16px minimum on web. **Device:** a 4–6 chip swatch strip for dividers, estimates and Reel end-cards.

DFW
TOTAL REMODELING

Mark = roofline over a level with its bubble ("plumb and true"). Wordmark is live text; convert to outlines before print. A designer should finalize it.

4. Offer Architecture

Tier	Service	Role
Entry	Interior/exterior painting, cabinet refinishing, color consult	Fast, lower ticket, high volume; earns trust and reviews
Core	Kitchen & bath remodels	Best margin per client
Anchor	Whole-home / additions	Rare, big, referral-driven

Funnel: paint jobs get you inside homes cheaply and prove you're clean and honest; every painting client should leave knowing you remodel (soft mention at walkthrough). **Name:** keep "DFW Total Remodeling" as the brand and "& Painting" as the descriptor; keep "Paint" out of the legal name. If painting is most of your revenue, flip the hierarchy.

5. Trust & Compliance (verify before claiming)

- No years, license numbers, review counts or "insured" badges are invented. Texas has no statewide GC license; check TDLR (electrical/HVAC), TSBPE (plumbing), city registrations and permits.
- **Pre-1978 homes:** the EPA Renovation, Repair and Painting (RRP) rule requires certified firm and renovator. Advertise it only if you hold it.
- Put paint specs in writing: brand/line, coats, prep scope, color code, sheen, inclusions. State a warranty only if you'll honor it.
- **Photos:** use real before/afters from your jobs. Don't present AI images as completed work (deceptive; FTC/DTPA risk). Label AI concepts as concepts.

6. Website, Social & Paid

Website (mobile-first)

- Hero: one outcome, one CTA ("Get a written estimate"), sticky tap-to-call.
- Order: proof → services → process → gallery → areas → FAQ → form.
- 44px touch targets, focus states, alt text, real labels.
- Local SEO: service × city pages; Google Business Profile; consistent name/address/phone.

Content pillars

- Color transformations (7–10 s Reels, color name on screen)
- Prep is the job
- Refinish vs replace cabinets
- Exterior paint in Texas heat
- Remodel timelines (real ones only)

Hooks to test

- "Why your exterior paint is peeling in 3 years (and it isn't the paint)."
- "Refinish or replace your cabinets? The honest math."
- "What a painter should put in writing before opening a can."
- "3 things a contractor should put in writing before touching your house."

Paid (Meta)

- Lead with painting ("free color consult + written estimate"); nurture/retarget with remodel.
- Radius targeting around your real service area; 3 creatives; run ≥ 2 weeks.
- Track cost per *qualified* lead and per booked estimate.
- Housing is a Meta special ad category: limited targeting.

7. Still Needed From You

1. Revenue split: painting vs remodeling
2. In-house painters or subs; trades in-house
3. Residential only, or commercial/HOA too
4. Cities served; price tier
5. Existing logo/colors/site; RRP certification
6. Real project photos; who is the face of the brand
